

Become a Member of the ELI® Certified Instructor Community™

Join the more than 5,000 individuals across the globe who are members of ELI's Certified Instructor Community (CIC), helping their organizations build professional, civil, and legal workplace cultures. ELI's Certified Instructor Program (CIP) gives instructors the knowledge and skills needed to effectively deliver ELI® courses.

As a participant, you'll attend an intense, hands-on workshop where you will learn the foundation of ELI® course methodology and how to facilitate for maximum impact. You will present course segments, complete assessments covering key topics, and receive one-on-one feedback to help you improve your effectiveness in the classroom. Once certified, you'll become a member of the CIC, with access to networking, special events, a password-protected website, and other services to support your implementations and allow you to share best practices with like-minded colleagues from around the world.

Participants in a Civil Treatment® Basics CIP will have the opportunity to be certified to teach Civil Treatment® for Managers, Civil Treatment® for Employees, Civil Treatment Impact®, and any future courses added to the Civil Treatment® Basics series. **Best of all, your certification status remains active even if you change positions within your company or move to another organization.**

In addition to this schedule, ELI® offers on-site certifications (6 person minimum) at the location of your choice based on expressed interest or need. Please contact ELI® for more information and to schedule an on-site certification in a location where one is not currently scheduled.
