

FOCUS ON: Mandatory Sexual Harassment Prevention Training

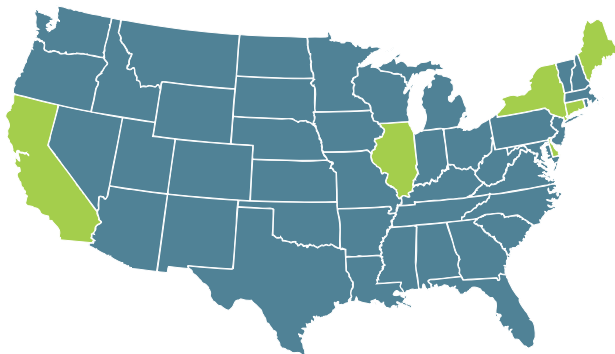

ELI's new Sexual Harassment Prevention Training Focal Points are a convenient and effective way to meet mandated state training requirements while expanding and reinforcing your Civil Treatment® Workplace experience.

ELI's new modules teach **Sexual Harassment Prevention Training** through the lens of our award-winning Civil Treatment series. Presented in a convenient add-on format, each module must be facilitated with a **Civil Treatment Workplace or Civil Treatment** course to meet all state-specific content and timing requirements.

Training is available for all states with mandatory sexual harassment training requirements. The approximate add-on times for each state module, in addition to the full or half-day Civil Treatment Series course, are:

- California** (approx. 35 minutes)
- Connecticut** (approx. 25 minutes)
- Maine** (approx. 20 minutes)
- Delaware** (approx. 10 minutes)
- Illinois** (approx. 10 minutes)
- New York (city and state)** (approx. 30 minutes)

Please note that facilitators may want to allow additional time to address any questions participants might have.

Materials consist of short handouts with key learning points and are available in both instructor-led and virtual-classroom formats.

The content can be added to:

**Civil Treatment Workplace
for Leaders**

**Civil Treatment Workplace
for Employees**

Civil Treatment for Leaders

Civil Treatment for Employees

Sexual Harassment Training Focal Points are the first of our targeted post-learning Focal Points modules that offer a deeper dive into specific content covered in Civil Treatment Workplace.
